INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 300036W0/KCS/nlb	FOR FURTHER see Notification of (Form PCT/ISA/2.	Transmittal of International Search Report 20) as well as, where applicable, item 5 below.						
International application No.	International filing date (day month year)	(Earliest) Priority Date (day month year)						
PCT/IB 03/02603	4 June 2003	14 June 2002						
Applicant		••						
Nokia Corporation et al.								
This international search report has be applicant according to Article 18. A	been prepared by this International Search copy is being transmitted to the Internation	ing Authority and is transmitted to the nal Bureau.						
This international search report consi	ists of a total of sheets.							
X It is also accompanied by	y a copy of each prior art document cited i	in this report.						
1. Basis of the report								
a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.								
the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).								
b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:								
contained in the internati	ional application in written form.							
- filed together with the int	- filed together with the international application in computer readable form.							
	furnished subsequently to this Authority in written form.							
furnished subsequently to	o this Authority in computer readable form	1.						
the statement that the su	bsequently furnished written sequence listing tion as filed has been furnished.	ng does not go beyond the disclosure in						
the statement that the inf	formation recorded in computer readable f	form is identical to the written sequence						
2. Certain claims were foun	nd unsearchable (See Box I).							
3. Unity of invention is lack	ting (See Box II).							
4. With regard to the title,								
	ubmitted by the applicant.							
X the text has been established	shed by this Authority to read as follows:							
_	METHOD FOR EVENT NOTIFIC	CATIONS IN A						
MULTIMEDIA NET	rwork							
5. With regard to the abstract,	·							
	submitted by the applicant.							
the text has been establiapplicant may, within or comments to this Autho	shed, according to Rule 38.2(b), by this Au ne month from the date of mailing of this in rity.	uthority as it appears in Box III. The international search report, submit						
6. The figure of the drawings to be	published with the abstract is Figure No.							
as suggested by the appl		None of the figures.						
X because the applicant fa	•							
because this figure bette	er characterizes the invention.
